Summary

Motivated with solid work experience. An exceptional learner, willing to do whatever must be done to finish the job. Very experienced at learning new programming languages such as C#, Python and C++.

Education

University of Lincoln - Lincoln United Kingdom 2016 to 2019

- 1st year Games Computing – 2:1
- Modules include (among others) –
 - Algorithms
 - Programming
 - Maths
- 2nd year Games Computing – 2:2
- Modules include (among others) –
 - Artificial Intelligence
 - Human Computer Interaction
 - Group Project
- 3rd year Games Computing – 2:2
- Modules include (among others) –
 - Image Processing
 - Advanced Games Programming
 - Project
- Through the course I have made many applications, such as an as a football guessing game, a tool that can look through text and tell you how many vowels and consonants, a dice game that allows you to play with someone or an AI, a tool that would sort and allow the user to search through data. I have also taken an MTA: Software Development Fundamentals exam and passed.

A-Levels – Product Design 2014 to 2016

John Leggott College – Scunthorpe, North Lincolnshire, United Kingdom

Product Design - C

BTEC Extended Diploma – IT 2014 to 2016

John Leggott College – Scunthorpe

IT – D*DD

GCSE - 2009 to 2014

Winterton Community Academy – Winterton, North Lincolnshire, United Kingdom

- English – C • Maths – C • Science A – C • Science Additional – D • Physical Education – C
- Geography – D • French – D • Product Design – B

Relevant Experience

Summer Project – June 2017 to September 2017

- Willingness to learn, as I learnt python in my spare time, making my depth of programming broader.
- Team working, as my brother and I both had different skills to bring to the table. He knows a lot about electrical engineering and I know a lot about programming, so we worked off each other learning new and useful skills.
- Determination, as we had many problems along the way, when it came to the programming problems we would try to solve them ourselves and not go to google for the answers, we overcame most of the problems quickly.

Pot Washer – September 2013 to February 2016

THE GEORGE HOGG – Winterton, North Lincolnshire, United Kingdom

- Perceived, work that needed to be done and worked on own initiative, ensuring the pub was clean and inviting for customers.
- Left alone, at the end of the day I would be left to make sure the pub was clean, this shows that they trusted me to do the tasks or more to make sure the pub was clean at the end of the day without anyone supervising me and telling me what to do.

Work Experience, April 2012 to April 2012

Hobbies

Cricket – 2006 to 2017

Alkborough Cricket Club

- Played well under pressure, I was usually the player with the least experience as I would be the youngest, but would always try my hardest and performed well enough to be asked to play week in week out for the 3rd team and the 2nd team.
- Self-belief and ambition, I got asked at the age of 15 to move up to the men's team and have played there ever since and eventually taking the wicket keeper spot in the 2nd team and sometimes the 1st team. I also got moved to opening batsmen several matches due to my run-in form.
